## Smart Door Eye

Your trusted and private gatekeeper

## INTRODUCTION

Smart Door Eye is a smartly designed security appliance to provide alerts based on motion detection. It secures any place where it is essential to detect motion. In addition to providing alerts it sends photo capture by covering wide area. It provide cloud based storage to provide your data anytime, anywhere. Being a cloud based storage, it's secure from the virus attacks like Ransomware

## ABOUT DEVICE

- ❖ 1/3" 1.3 Megapixel progressive CMOS.
- ❖ H.264 & MJPEG dual-stream encoding.
- ❖ 25/30fps@1.3M (1280×960).
- ❖ 92° horizontal view angle.
- ❖ IR Distance 10m.
- ❖ Network: Wi-Fi, 50m(open field), RJ-45
- ❖ Micro SD card slot, up to 128GB
- ❖ DC12V

# KEY FUNCTIONS

## MOTION DETECTED ALERT

It alerts user detecting visitor with its motion detection Sensor.

## USER DEMANDED CAPTURE

User can request capture of the door front anytime/anywhere from the Application.

## FACE DETECTION

It can detect a human face and capture an image and send it on your smartphone within 10 seconds.

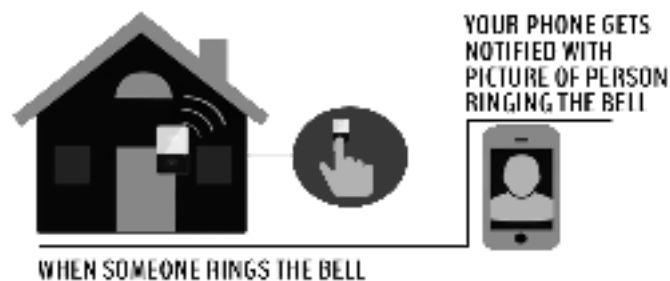

## CLOUD STORAGE

It provides you a cloud storage to access the data from anywhere, anytime. You don't need to worry about data if you change the smart phone.

# HOW DOOR EYE WORKS?

It works as simple as when it detects motion, your smart-phone blurts and buzzes, and with a tap, you can view the captured snap of the visitor. It doesn't matter if you're in the kitchen, at the office.
